Yashraj Nayak

Student Programs (APJ) at Databricks | Codex Ambassador | Co-
Founder #BLRTechWeek
Bengaluru, Karnataka, India

Summary

Developer and people person with 9+ years of experience building and scaling developer communities across India and APAC. I currently lead University Alliances and Student Programs for Databricks in APJ, helping build a stronger pipeline of data and AI talent across top institutions. Previously, I supported MongoDB User Groups globally, contributed to GitHub Developer Relations programs in India, grew OutSystems' APAC community, scaled Progate's India community to 200,000+ learners, and worked on community programs at Skillenza. I am passionate about creating authentic spaces where developers can learn, collaborate, and thrive.

Experience

Databricks

Program Manager, Student Programs (APJ)

March 2026 - Present (8 months)

Bengaluru

Owning Databricks' university alliances and student programs strategy for APJ region, focusing on building a strong pipeline of data and AI talent.

Bengaluru Tech Week

Founding Member

May 2026 - Present (6 months)

Bengaluru Tech Week is a community-powered, citywide celebration of Bengaluru's builders, technology communities and innovation ecosystem.

- Shaping the vision and operating model for a decentralised Tech Week where the city becomes the venue.

- Curating flagship experiences - Aarambha, Women in Tech Mixer and BTW Buildathon.

- Bringing together companies, startups, communities, universities and independent organisers to host events across AI, data, developer tools, open source, product, design and entrepreneurship.
- Leading ecosystem partnerships and programme curation.

MongoDB

Senior Program Manager, Developer Relations

August 2025 - March 2026 (8 months)

Bengaluru

- Collaborated closely with regional teams and internal stakeholders to ensure alignment for MongoDB User Groups (MUG) program.
- Supported 40 existing MongoDB User Groups globally and launched/revived chapters in key cities including Seoul, Abu Dhabi, Rio de Janeiro, and Cape Town.
- Managed operations as the DRI for 24 user group events, totalling over 4,600 RSVPs.

GitHub

Program Manager, Developer Relations

March 2024 - August 2025 (1 year 6 months)

Bengaluru

As a Program Manager, I supported the GitHub Developer Relations team with:

- Planning and execution of Constellation 2024, GitHub's developer conference celebrating the best of the Indian developer community, which attracted thousands of registrations and engaged 900+ in-person attendees in Bengaluru, India.
- Key programs such as the Global Meetups Program and premier events like GitHub Universe Recap and GitHub Connect India.
- Developed processes and automations to scale GitTogethers program in India, hosting 39 premier developer meetups in Bengaluru, Delhi NCR, Hyderabad, and Mumbai July 2024 to July 2025. These in-person events featured over 200 speakers and engaged more than 10,000 of India's most active developers, bringing them closer to the GitHub ecosystem.
- Represented the voice of developers internally, working with teams across the company to bring their insights back into GitHub.

OutSystems

APAC Community Growth Manager

March 2021 - February 2023 (2 years)

Bengaluru, Karnataka, India

As part of the Developer Relations team at OutSystems, I focused on expanding our global community programs in the Asia-Pacific region.

Some programs and initiatives I have worked on:

- #14DaysOfOutSystems Challenge, a cohort-based learning program for developers who are new to OutSystems. Participants start following a 14-day learning plan and help each other along the way.
- OutSystems Developer Journey, a 4-stage self-paced learning journey for anyone to go from absolute beginner to certified OutSystems developer.
- OutSystems Student Accelerator, a structured learning program for university students to get started with low-code app development, build applications, get certified, and become job-ready.
- OutSystems User Groups (OSUGs) are community-driven chapters in different cities worldwide. I am supporting user group organizers in APAC to host technical events and build a strong community of OutSystems developers in their cities and regions.
- Hosted large-scale internal hackathons with our key global partners such as Infosys, KPMG, etc.
- OutSystems Intro Talks, 90-mins introduction to low-code app development.

Progate

3 years

India Community Manager

June 2018 - February 2021 (2 years 9 months)

Bengaluru, Karnataka, India

Progate is an online coding learning platform from Japan with over 2 million learners across the world. I was involved in managing the India community at Progate, building and scaling programs to engage our community of over 200,000 learners in India.

Some programs and initiatives I have worked on:

- Progate's Community Partnership with Hacktoberfest 2020 (Sept 2020)

Finalized this partnership and helped 100+ student volunteers to plan and execute their own online meetups, inspiring thousands of university students to start their open source journey.

- Progate Learning Jams (Feb 2020 - Feb 2021)

Helping beginners to try their hands on new technologies such as React, Node, etc. Planned and executed over 30 Learning Jams in Bangalore, Delhi, Pune, Indore, Nagpur, Mumbai, etc, and 10+ online Learning Jams covering different topics.

- Progate Week of Learning (Sep 2019 - Feb 2020)

An intensive week-long learning program to combine online and offline learning. 8000+ students from 50+ universities across India started their web development journey with a 'Week of Learning'

- Progate India Community Support Program (2019)

Connected with 10+ nonprofit organizations working for tech skilling or digital empowerment, helped them with support and resources to do more good.

- Progate Student Ambassadors Program (2018)

Over the period of 6 months, 30+ ambassadors in universities across India hosted technical activities and workshops in their campus, helping hundreds of students to learn new skills.

- Hour of Code™ 2018 Campaign (Supported by Progate)

Reached 6000+ high school students in 20 cities across India, including Mumbai, Hyderabad, Bangalore, Chennai, Delhi, Pune, Varanasi and more. Trained 100+ volunteers on how they can inspire school students to learn to code. Collaborated with partners like CodeChef and DigitalOcean.

Strategic Partnerships

March 2018 - May 2018 (3 months)

Bengaluru Area, India

Responsible for exploring and building early-stage partnerships for Progate in India. Finalized academic partnerships with 15+ schools and universities in different cities across India.

Skillenza

Community Manager

August 2017 - February 2018 (7 months)

Bengaluru Area, India

- Worked alongside teams from DigitalOcean, AWS, Digital Domain, Société Générale, etc to plan and execute various developer events across the country (both online and offline)
- Helped in the execution of Hack2Innovate 2017, series of 7 deep-tech hackathons in cities across India. While working with teams from T-Hub, Microsoft, NVIDIA and PwC.
- Built a diverse team of experienced mentors for Rajasthan Hackathon 4.0, Rajasthan Government's biggest technical event.
- Handled Skillenza's student developer engagement, came up with initiatives and university programs such as Skillenza Campus Hustlers (SCH). Supported 25+ hackathons in different campuses reaching thousands of university students.

Uber

Operations Consultant

September 2016 - October 2016 (2 months)

Bhopal Area, India

Managed the process of on-boarding new partners and supporting existing ones.

Managed in-person communications (both 1-1 and 1-many) between Uber and its partner community.

Education

Rajiv Gandhi Prodyogiki Vishwavidyalaya

Bachelor of Engineering - BE, Information Technology

Jawahar Navodaya Vidyalaya (JNV)
